GRAPHIC DESIGNER
ayesha-in@hotmail.com

My name is Ayesha S. Siddiqui and I am presently working as a graphic designer in the Visual Communication department of New York City College of Technology. I graduated from CityTech in June 2009 as a Valedictorian.

I have known Professor Jenna Spevack since Spring 2008, when I took my first Web design course with her at City Tech. I found her extremely dedicated to her students. She was always there for us, whether it is in the class or outside the class. As I was completely naive with web design strategy and concept, I found her very patient and cooperative. She appreciated my queries and always answered my them gladly. We often met outside the class during her office hours, which she always encouraged. Her great support and mentorship enabled me to finish my assignments in time and understand the concepts, as well. It was her continuous help and support that enabled me to pass the class with the highest grade and also gave me the confidence to register for another web design course the next semester.

In short, I truly feel fortunate for being in her class and having an opportunity to learn from her. Even today, I contact Professor Spevack for any help I need and she is always very glad to help me out.

It is a great pleasure and honor for me to write this letter of support, acknowledging her efforts and contributions to the field of teaching. We need more mentors and instructors like her.

If you need any more information about my experience, please feel free to contact me.

Sincerely,

Ayesha S. Siddiqui
